

# Making a Wriggly Earthworm

Make your very own earthworm that you can name and look after.

## What you will need:

- Pair of tights
- Coloured card (pink)
- Googly eyes (with a sticky back)
- Elastic bands (about 15)
- Stapler
- Shredded scrap paper

## How to make your worm:

Stuff a leg of the tights with shredded paper until you reach the end. Tie a knot in the end of the tights and cut off the extra leg.

Place the elastic bands on the worm spacing them out to make segments.

Cut a piece of card long enough to wrap around the width of the worm (you are making a worm's saddle). Staple the card to hold the card in place.

Stick the googly eyes on the worm.
